Factory Finishing Changes

Due to a lack of volume within various standard Mohawk finishes (by specie); Mohawk has removed the following items from our stock inventory:

African Mahogany – Dark Brown, Teak, and Walnut

Maple – Dark Brown and Walnut

Cherry – Dark Brown and Walnut

Rustic – White

These finishes will continue to be made available to our customers, simply not inventoried. Quote requests and orders may incur set up charges for these colors based on the requested quantity of doors. Please consult a Mohawk representative for more details.

Effective Immediately – Mohawk’s standard Gray finish will be removed from our standard offering on ALL veneer species. This color will be produced by special request only. We WILL keep Rustic Gray in our standard offering.

Effective April 30, 2006 Mohawk will incorporate the same top coat and sheen to our Rustic Series of doors as used on standard transparent finishes. Customers with Rustic samples in their stock are encouraged to replace them with our new top coat, which maintains a satin or approximate 30 degree sheen. All project work that must be produced to match existing Rustic products (60 degree sheen) must be identified and we will make our best attempt to fulfill your request. We regret that 60 degree sheen orders placed after June 30, 2006 will be subject to set up charges and extended lead-times.

Please consult a Mohawk representative for more details.
