Reject Backs on Bifold Doors

As a result of continuous factory improvements in both the manufacturing and finishing processes within Mohawk, we can no longer offer reject backs on bifold door units. For customers that utilize the published Mohawk pricing schedule, please be advised that the prices shown in our catalogue represent a door unit constructed with skins that are good on two sides.

We can no longer offer a price reduction for reject backs.

If you have any questions concerning this matter, please do not hesitate to contact your nearest Mohawk sales associate.
